Heating, Cooling & Ventilation: Sustainable technologies for a better life

Christian Müller-Elschner

Founding Partner, Deutsche Ventures

Christian Mueller-Elschner is Founding Partner of Deutsche Ventures, a company that is bringing together great people, technologies and ideas to build new busi-nesses with passion, building bridges between Startups and Corporates and designing and operating innovation Hubs e.g. the Danfoss digital Hub in Berlin.

Christian has more than 20 years experience in the telco, industry and energy sector. He is a Board Advisor of Apricum one of the first advisory companies that focussed on CleanTech and worked two years as COO at Younicos, a startup that is among the pioneers in the market of energy storage and energy management.

Prior to this Christian was a SVP and board member of the Global Industry Line Telco, Media & Utilities at T-Systems, a general Partner at Roland Berger Strategy Consultants and a Product Manager at Krone AG.

Christian is a member of the Supervisory Board of UNDKRAUSS Bau AG, member of the Advisory Council of the Real Estate Innovation Network (REIN), Co-Foun-der & Mentor of Startupbootcamp Smart Transportation & Energy program and acts as advisor and/or angel investor to startups.
