Heating, Cooling & Ventilation: Sustainable technologies for a better life

Kai Just

Mechanical engineering student, University of applied science, Karlsruhe

Kai Just was born in Heidelberg in 1994. He went to school from 2000 until 2012, when he started his studies in mechanical engineering at the university of applied sciences. In 2016, he chose to specialise in refrigeration-, climate- and environmental technologies.

In November 2017 he collected his first experiences as a student reporter for cci Dialog GmbH.
