Heating, Cooling & Ventilation: Sustainable technologies for a better life

## **Stefan Scheuer**

Secretary General, the Coalition for Energy Savings

Stefan Scheuer, Secretary General of the Coalition for Energy Savings.

Stefan Scheuer has been involved in shaping and making EU energy and environmental policies to support public interests and to achieve change on the ground for the benefit of people and their environment for two decades. With his public affairs consultancy based in Brussels, he provides analysis, advice and management services for a broad range of clients, including governmental, business and civil society organisations.

Since 2014, he is representing environmental, health and consumer interests as member of the Management Board of the European Chemicals Agency in Helsinki.

Since 2011, he leads as Secretary General the Coalition for Energy Savings, the voice of European business, consumer and environmental associations, energy cooperatives, local authorities and trade unions for putting energy and efficiency at the centre of Europe's energy and economic policy.

From 2000 to 2007 he worked at the European Environmental Bureau, lately as its Policy Director, and was Chairman of the ECOS, the EU citizens' organisation working on greening technical standardisation.

Stefan Scheuer is a hydrologist by training, researching the natural and anthropogenic water cycle and aquatic ecosystems.
