'Knowledge is useless if it is not shared'.

International Energy Agency
Heat pump technologies

Eva, Britt, Lina en Yoran van het Sint-

Only when the last tree has withered, and
the last fish caught, and the last river been
poisoned, will we realize we cannot eat
money.

Beyond Growth:

Economics as if the planet mattered

International Sustainable Energy Conference –
ISEC 2018

Mark T. Brown
Center for Environmental
Policy - University of
Florida

Sergio Ulgiati
Department of Science and
Technology - Parthenope
University
